Redemption: Unless previously repurchased and cancelled, the Bonds will be redeemed by the Issuer on the Maturity Date at their outstanding principal amount. If any such Maturity Date falls on a day that is not a Business Day, the payment of the principal amount will be made on the following Business Day.

The Bondholders are not required to surrender the Bond certificates (if issued) to the BOT, except where there is any specific necessity or doubt as to the ownership of the Bonds (for example, the Bonds have been used as a collateral), the BOT may request the Bondholders for their Bond certificates to be surrendered and the Bondholders must submit the completed Principal

Redemption Forms, together with other relevant supporting documents, to the BOT.

Principal and Interest Payment Method:

The interest and principal payments will be paid by the BOT to a bank account opened in Thailand (which is not a special saving account or fixed account) of each holder of the Bonds, whose name: (i) is notified to the BOT by the TSD (for Bonds deposited with the TSD in the scripless system); or (ii) appears in the register of the Bonds (the “**Register**”) maintained by the BOT (for Bonds not deposited with the TSD) at the end of the business day preceding the first day of the Closing Period (as defined below), on each interest payment date and the Maturity Date, respectively, by way of wire transfer. If any payment date is not a Business Day, such payment shall be made on the following Business Day.

Closure of the register:

The BOT will close the Register for a period of 10 (ten) days prior to each interest payment date, the Maturity Date or otherwise as specified in the BOT’s Notification Re: Interest and Principal Payment (the “**Closing Period**”). The BOT would accept or register a transfer of or security interest over the Bonds during any Closing Period other than the Closing Period in respect of the final interest payment date and the Maturity Date unless it deems appropriate.

The Register will be closed as specified above for the purpose of determining a list of eligible holders of the Bonds entitled to relevant rights relating to the Bonds. Such list of eligible holders of the Bonds shall be determined at the end of the business day preceding the first day of each Closing Period.

The Issuer and/or BOT reserves the right to change the date and period for the closure of the Register without having to obtain prior consent from any holders of the Bonds.

Transfer and Creation of Security Interest:

Transfer of title to the Bonds or creation of any security interest over the Bonds must comply with the applicable ministerial regulations and the applicable regulations and internal rules of the BOT and TSD (as the case may be) in relation thereto.

Repurchase:

The Issuer may at any time repurchase or otherwise acquire the Bonds in the open market or otherwise. After the Issuer has repurchased any of the Bonds, the debt under such Bonds shall be extinguished due to a merger of debts under Thai law, and the Issuer may not further offer such Bonds for sale. The Bonds which are repurchased and acquired will be cancelled.

Further Issues:

The Issuer reserves the right from time to time after the Issue Date without the consent of either the holders of the Bonds or the Joint Lead Managers to issue additional securities with terms identical to the Bonds (save for the issue date, the tenor and the first payment of interest thereon), so that the same shall be consolidated with, form a single issue with and increase the aggregate principal amount of the Bonds.

RISK FACTORS

The prolonged impact of the COVID-19 pandemic and geopolitical tensions could have an adverse effect on Thai economy.

In December 2019, a novel form of respiratory disease first noticed in Wuhan, Hubei province (“COVID-19”, caused by a novel coronavirus) was reported to the World Health Organization, with cases soon confirmed in multiple provinces in China. On 11 March 2020, the World Health Organization characterized COVID-19 as a pandemic. Since then, governments across the world adopted a variety of containment measures, including mandatory quarantines and travel restrictions, to control the initial outbreak, as well as subsequent waves of infections.

Despite the continuous spread of COVID-19 to the date of this Information Memorandum, there is a sign of gradual recovery and the resumption of normal daily and business activities has been supported by factors, including (i) higher vaccination rate with more than 40% of Thailand’s population having received a booster shot, (ii) relaxation of containment measures, (iii) all regions in Thailand being declared green zones, (iv) the reopening of entertainment venues from 23 June 2022, and (v) the dropping of the requirement for Thailand Pass and health insurance for foreign tourists from 1 July 2022, etc. Nonetheless, there remains risks the global economies and the Thai economy could underperform the baseline projection due to supply disruptions in some industries which were hit by the Russia-Ukraine crisis, political tensions between China and Taiwan, China’s strict COVID-19 measures, emergence of new variants and possible mutations of COVID-19, re-imposition of restrictive measures and other policies implemented to curb the pandemic, its prolonged impact and/or any financial or economic disruptions.

The Bonds may trade at a discount to their initial offering price and/or with limited liquidity.

The holders of the Bonds may sell or purchase the Bonds over the counter through commercial banks and securities companies having a debt securities dealing license. However, there can be no assurance that an active trading market for the Bonds will develop and continue after this offering or the prices at which the Bonds will sell in the market after this offering will not be lower than the initial offering price.

If an active trading market for the Bonds does not develop or is not maintained, the Bonds could trade at prices that may be higher or lower than the price at which the Bonds have been issued. The price at which the Bonds trade depends on many factors, including the following:

- prevailing interest rates and the markets for similar securities;
- financial condition, historical financial performance and future prospects;
- political and economic developments in and affecting Thailand and other countries which are trading partners of Thailand;
- general economic conditions locally, regionally and globally;
- changes in the credit ratings of the Issuer; and
- the financial condition and stability of the Asian or global financial sector.

The Issuer does not intend to apply for listing of the Bonds on any securities exchange. Lack of a liquid, active trading market for the Bonds may adversely affect the price of the Bonds or may otherwise impede a holder’s ability to trade or dispose of the Bonds.

Foreign exchange rate risks and exchange controls may result in investors receiving less interest or principal than expected.

The Issuer will pay principal or interest on the Bonds in Baht (as defined above). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than Baht. These include the risk that exchange rates may significantly change (including changes due to devaluation of Baht or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to Baht would decrease (a) the Investor's Currency equivalent yield on the Bonds, (b) the Investor's Currency equivalent value of the principal payable on the Bonds and (c) the Investor's Currency equivalent market value of the Bonds. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rates. As a result, investors may receive less interest or principal than expected, or no interest or principal.

**USE OF PROCEEDS DERIVING FROM THE OFFERING OF THE
GOVERNMENT SUSTAINABILITY BOND (COVID-19) (DEBT RESTRUCTURING) FY. B.E.
2565 NO. 5**

In accordance with the Public Debt Management Plan Fiscal Year B.E. 2565 (2022) which was approved by the Cabinet on 28 September 2021, (as amended and supplemented by the amended Public Debt Management Plan Fiscal Year B.E. 2565 (2022) (the Third Amendment) which was approved by the Cabinet on 26 July 2022, the Issuer, by virtue of the Emergency Decree Authorising the Ministry of Finance to Raise Loans to Solve Problems, to Remedy and Restore the Economy and Society as Affected by the Coronavirus Disease Pandemic B.E. 2563 (2020) and the Public Debt Management Act B.E. 2548 (2005) (as amended or supplemented), intends to apply the proceeds derived from the Bonds for restructuring debts previously incurred for the purposes of resolving, remedying and restoring the Thai economic and social impacts resulting from Coronavirus disease (COVID-19) pandemic that contribute to an improvement of society and an environmental conservation, as well as elevating standard of living of the people of Thailand. The Sustainability Bonds (COVID-19), therefore, have eligible features to qualify as “Green Bonds” and “Social Bonds” which are composition of sustainability bonds within the Kingdom of Thailand’s Sustainable Finance Frameworks (as of July 2020). According to such framework, the Issuer intends to use the Bond proceeds for restructuring debts previously incurred for the purpose of the Government’s spending within the following scope:

- (1) for work plans or projects with objectives relating to medical and public health to control the spread of COVID-19 pandemic;
- (2) for work plans or projects with objectives to assist, remedy and compensate members of the public, agricultural workers, and business operators affected by the spread of the COVID-19 pandemic; and
- (3) for work plans or projects with objectives to restore the economy and society as affected by the spread of the COVID-19 pandemic.

The Issuer may, by virtue of the above mentioned laws, issue additional sustainability bonds, the proceeds deriving from which would be applied for the purposes specified in (1), (2) and/or (3) above, as approved by the Cabinet under the relevant future public debt management plan.

1 Introduction and rationale

The Kingdom of Thailand (“KOT”) has established this Sustainable Financing Framework (“Framework”) to support its sustainability commitments and to set out how it intends to raise Green, Social and Sustainability financing instruments. With this Framework, and any financing under this Framework that may follow, KOT intends to contribute to the development of the Sustainable Financing market domestically in Thailand, as well as internationally.

The Kingdom of Thailand is committed to deal with climate change following the Paris Agreement and support the United Nations Sustainable Development Goals to combat with poverty, inequality, environmental degradation, health, and justice by 2030.

1.1 The Kingdom of Thailand’s contribution to the United Nations Sustainable Development Goals (UN SDGs)

The Twelfth National Economic and Social Development Plan (2017-2021) shares the vision of Thailand’s 20-year National Strategy, which is “Thailand as a developed country with security, prosperity, and sustainability in accordance with the principles of the Sufficiency Economy Philosophy”. The targets and indicators of the Twelfth Plan have been set according to the targets of the 2017-2036 National Strategy, and are also in line with the economic, social, and environmental objectives which have been developed by the international organizations, such as the SDGs.

Source: sustainabledevelopment.un.org

Thailand has also chosen to adopt the Sufficiency Economy Philosophy (SEP) of His Majesty the late King Bhumibol Adulyadej, Rama IX as the pathway to achieve the 17 the United Nations Sustainable Development Goals and develop Thailand to an integrated social and environmental economy.

The principle of SEP is a development approach creating sustainable development through integration of the physical, social and spiritual dimension. It provides orientation for sustainable mindset and lifestyle using both knowledge and virtues for decision-making. The SEP has been and continues to be a vital element of development strategy as it underpins the promotion of moderation, reasonableness, and prudence.

Moderation

In Thailand, moderation will be an important principle for achieving the SDG targets such as less wasteful consumption and production patterns, the curbing of fossil fuel usage, and sustainable management of marine

Reasonableness

Reasonableness refers to thoughtful consideration of the impact that our actions and decisions may have both on others and the world around us. Considering the SDGs, reasonableness has numerous practical applications in global issues of climate change, equality, justice, developing clean energy sources and reducing pollution.

Prudence

Prudence is about assessing potential risks, working methodically and achieving a level of competence and self-reliance before proceeding further. It is also about people taking care not to overreach their capabilities. This principle may apply to almost all of the SDGs including health, food, water and energy security in particular.

In 2017, the National Science Technology and Innovation Policy Office, announced the strategic 20-year plan for human resources development in research and innovation, which aims to upgrade highly-skilled labor forces and establish a high-quality educational system for talented students for driving Thailand towards becoming a high-income nation by 2036.

The Ministry of Health also announced its plan “eHealth Strategy 2017 – 2026”, which aligns with the 20-year national strategy on public health and Digital Economic and Social Development Plan to broaden opportunities to access health care system, improve social equality and equity, reduce costs in public health management, and provide seamless service and secure sharing of healthcare data.

In 2020, the KOT announced the higher education, science, research and innovation policy and strategy framework to develop domestic education for preparing Thai people for the 21st century and to develop a balanced economy, stable society, and sustainable environment, which it aims to achieve in 2027.

1.2 The Kingdom of Thailand's consistent commitment to address climate change following the Paris Agreement

Ahead of the Paris Agreement in 2015, the KOT submitted an Intended Nationally Determined Contribution (INDC) plan to the United Nations Framework Convention on Climate Change (UNFCCC), which aims to limit global warming to 1.5°C and reduce CO₂ emissions to 20% – 25% by 2030¹, which is below the business as usual. This plan also includes the Power Development Plan (2015 – 2036), Thailand Smart Grid Development Master Plan (2015 – 2036), Alternative Energy Development Plan (2015 – 2036), Environmentally Sustainable System Plan (2013 – 2036), National Industrial Development Master Plan (2012 – 2031), and Waste Management Roadmap.

The Climate Change Master Plan (2015-2050) was developed by the Office of Natural Resources and Environmental Policy and Planning (ONEP), under the direction of the Ministry of Natural Resources and Environment as a continuous framework of integrated policies and action plans relating to climate change. The plan lays out a vision to achieve climate-resilience and low carbon growth in line with the Sustainable Development Goals (“SDG”) by 2050. Thailand's National Adaptation Plan (2015-2023) is currently being drafted and in the process of establishing a work plan.

In 2016, the KOT set a national agenda on Municipal Solid Waste Management (Pollution Control Department, Ministry of Natural Resources and Environment), which targeted to ensure healthy lives and promote well-being, develop sustainable management of water and sanitation, and ensure sustainable consumption and production patterns.

Thailand's National Adaptation Plan (“NAP”) was approved in 2018 by the National Committee on Climate Change Policy (“NCCC”). It is built on the six priority sectors identified in the Climate Change Master Plan. The NAP aims to help Thailand become resilient and adapt to the impacts of climate change. The country would thereby achieve sustainable development aligned with its main principles, including the sufficiency economy principle, sustainable development pathway and local wisdom.

In 2019, the KOT approved the Roadmap for Plastic Waste Management 2018 – 2030 framework. The objectives are to reduce and stop the plastic usage and replace it with environmentally friendly materials.

In 2020, The Ministry of Energy announced its national energy development strategies, which included power development plan (PDP), alternative energy development plan (AEDP), energy efficiency plan (EEP), and gas plan (GP) that it aims to achieve by 2037.

¹ Business-as-usual projection from reference year 2005 in the absence of major climate change policies

2 Kingdom of Thailand's Sustainable Financing Framework

KOT has established this Sustainable Financing Framework as a logical next step to Thailand's pioneering sustainability commitments and ambitions outlined above. The projects financed under the Sustainable Financing Framework target climate change mitigation and adaptation, sustainable use and protection of water resources, protection and restoration of biodiversity and ecosystems, as well as fostering social development, socioeconomic advancement and empowerment to ensure positive social contribution and to fight against inequality in Thailand.

This Sustainable Financing Framework has been established in line with the most recent available versions of:

- the Green Bond Principles ("GBP") and Sustainability Bond Guidelines ("SBG"), issued by the International Capital Market Association (ICMA) in June 2018², and Social Bond Principles ("SBP"), issued by ICMA in June 2020³,
- the ASEAN Green Bond Standards ("GBS"), ASEAN Social Bond Standards ("SBS") and ASEAN Sustainability Bond Standards ("SUS"), issued by the ASEAN Capital Markets Forum (ACMF) in October 2018⁴, and
- the Green Loan Principles ("GLP") issued by the Loan Market Association (LMA) in May 2020⁵.

In line with the above, the Framework covers the following core elements:

1. Use of Proceeds
2. Process for Project Evaluation and Selection
3. Management of Proceeds
4. Reporting
5. External Review

KOT will aim to adhere to best practices in the market and will review the Framework's alignment to updated versions of the Green and Social Bond Principles, Sustainability Bond Guidelines and Green and Sustainability Linked Loan Principles as and when they are released. As such, this Framework may be updated and amended in the manner described in Section 3 ("Amendments to this Framework") below.

2.1 Use of Proceeds

An amount equal to the net proceeds of Green, Social or Sustainability financing instruments, issued by the KOT under this Framework, will be exclusively used to finance and/or refinance, in whole or in part, expenditures directly related to eligible Green and/or Social projects (“Eligible Green and Social Projects”) in the Eligible Green and Social Categories (as defined below).

Eligible Green and Social Projects can include government loans or expenditures in the form of direct investment expenditures, subsidies, fiscal measures and selected operational expenditures (including funding for state agencies, local authorities and companies instrumental to deploying the Thailand’s sustainability strategy). The Eligible Green and Social Projects are limited to Government Budget in the two budget years preceding the issuance, the budget year of issuance, and future budget years.

2.1.3 Exclusions

For the avoidance of doubt, any expenditure related to the following activities will be excluded from Eligible Green and Social Projects:

- Exploration, production or transportation of fossil fuel;
- Large scale hydropower plants (>25MW capacity);
- Generation of nuclear power;
- Biomass plants, waste to energy power plants and geothermal plants with CO₂ emission level of more than 100g CO₂ /kWh;
- Manufacture and production of finished alcoholic beverages;
- Lethal defence goods;
- Military contracting;
- Gambling;
- Weaponry;
- Non-RSPO-certified palm oil;
- Manufacture and production of finished tobacco products; and
- Conflict minerals
- Activities/projects associated with child labor/forced labor

2.2 Process for Project Evaluation and Selection

For the governance of KOT's Sustainable Financing Framework, the Ministry of Finance has set up a Committee consisting of the following members:

- Public Debt Management Office ("PDMO")
- Budget Bureau
- Office of the National Economic and Social Development Council
- State Enterprise Policy Office
- Office of Natural Resources and Environmental Policy and Planning
- The Securities and Exchange Commission
- Thai Bond Market Association

The Committee will review potentially qualifying projects and verify whether these comply with the criteria and definition of Eligible Green and Social Projects set out in Section 2.1. of this Framework. The projects approved as Eligible Green and/or Social Projects by the Committee may be listed for the Use of Proceeds of any Green, Social and/or Sustainability financing instruments issued under this Framework.

The Ministry of Finance is in charge of coordinating this process, and the relevant ministries will be responsible for providing the requested documents and any further information to verify eligibility.

The Committee may consult with other Government departments and agencies in carrying out its responsibilities. Selected representatives from the main ministries in charge of the execution of the public budget, and/or ministries responsible for the projects being considered may form a part of the Committee on

a case-by-case basis, for the purposes of the Process for Project Evaluation and Selection under this Framework.

The Committee will maintain notes and records of all Eligible Green and Social Projects reviewed and to be funded by the Use of Proceeds of each Green, Social and Sustainability financing instrument issued.

The Committee will monitor that Eligible Green and Social Projects continue to meet the Eligibility Criteria set in the Framework until the proceeds have been allocated. The Committee, with the assistance of the respective ministries utilising the proceeds if needed, shall track and monitor the environmental and social benefits of the Eligible Green and Social Projects which are funded by the KOT's Green, Social or Sustainability financing instruments.

2.3 Management of Proceeds

The allocation and tracking of the Green, Social and Sustainability financing instrument proceeds will be done by the Committee. KOT intends to allocate 100% of an amount equal to the net proceeds of a Green, Social or Sustainability financing instruments issued under this Framework to funding Eligible Green and Social Projects and will, on an ongoing basis, monitor the allocated funds as a part a formal internal process thereafter.

The net proceeds of any Green, Social and Sustainability financing instruments will be transferred to the government treasury reserve account of the Kingdom of Thailand. The Committee will ensure that the allocation of proceeds does not allow for listing of the same Eligible Green or Social Project twice. The balance of the net proceeds will be periodically adjusted to match allocations to eligible Green and Social Projects made during the life of the financing instruments.

The [Committee] shall maintain an allocation register (the "Register") to record the allocation of each Green, Social or Sustainability financing instrument proceeds. The Register will contain, for each such instrument issued, information including the details of each instrument's ISIN, pricing date and maturity date.

Pending the full allocation of the net proceeds to Eligible Green or Social Projects, any unallocated funds will be managed per The Comptroller General's Department's policy, and invested in temporary liquid instruments (cash or cash equivalents).

2.4 Reporting

For issuances under this Framework, the Committee plans to disclose the allocation of the amount equal to the net proceeds, on an annual basis starting one year from the first Green, Social or Sustainability financing instrument issuance, until the full allocation of the net proceeds to the Eligible Green or Social Projects, and as necessary in the event of any material changes.

The Committee plans on reporting on the associated environmental and social benefits on an annual basis starting one year from the first Green, Social or Sustainability financing instrument issuance until the full allocation of the proceeds.

The report(s) will be made available to investors on PDMO's website (<https://www.pdmo.go.th/en>).

Allocation Reporting

Where feasible, the Committee will aim to report the following information:

- The percentage of an amount equal to the net proceeds allocated to Eligible Green and/or Social Projects
- The percentage of financing/refinancing of projects
- A breakdown of allocated amounts to Eligible Green and Social Categories, and the relevant Ministry/Ministries responsible for the projects financed

Impact Reporting

Where feasible, the Committee will aim to report on the estimated environmental and social impacts arising from the implementation of the Eligible Green and Social Projects.

In case of co-financing, the Committee will aim to report on the pro rata share of impact or provide the share of financing from Green, Social or Sustainability financing instrument proceeds as a percentage of total project financing if total project impact is being reported.

The impact reporting will also provide information on the methodology and assumptions used for calculation of the impact metrics.

Example impact reporting metrics:

Eligible Green/ Social Category	Examples of impact indicators
Clean Transportation	<ul style="list-style-type: none"> • Reduced and/or avoided GHG emissions (in t. Under the technical assistance, ADB will support the government to undertake external review/third party review and reporting and monitoring activities, in line with global standards and best practices.

CLEARING SYSTEM

Registrar and Paying Agent

The BOT was established by virtue of the Bank of Thailand Act (B.E. 2485) (as amended, supplemented or replaced) as an entity in the form of a state agency and it is neither a government agency nor a state enterprise under the Thai laws on budgetary procedures or other laws. As the country's central bank, the BOT is responsible for undertaking businesses and affairs that are in the nature of the central banking business, and is charged with maintaining financial stability, financial institution system stability, and payment system (including, but not limited to, being the registrar and the paying agent for government bonds) stability.

The BOT is usually appointed by the MOF to act as a registrar and paying agent of government bonds (including, but not limited to, the Bonds). In its capacity as such registrar and paying agent, the BOT administers and maintains a register of the bonds containing accurate and updated government bond data and pays interest and principal under government bonds. The BOT also sends information to the holders of the government bonds and issues certification of withholding tax to such holders.

Depository

TSD is a subsidiary of The Stock Exchange of Thailand acting as the sole central securities depository in Thailand using a scripless system. The services provided by TSD are securities deposit, withdrawal, transfer, pledge, and revocation of pledge. Holders of government bonds can conduct their bond transactions through any securities depository participants. In this regard, "scripless" means a holding of securities without a paper certificate. Securities balances are recorded and kept in a scripless depository system provided by TSD. More detailed information on TSD and the securities depository system is available at www.set.or.th/tsd/en/tsd.html.

General

Although TSD and the BOT have established procedures to facilitate transfers of beneficial interests in the Bonds, they may cease to perform or discontinue to perform such procedures at any time, as a result of any change in applicable laws and regulations governing each of them. None of the Issuer or any of its agents will have any responsibility for the performance by TSD and the BOT or their respective direct or indirect participants of their respective obligations under the laws, rules and procedures governing their operations.

THAI TAXATION

This summary contains a general description of the principal Thai tax consequences of the investment in the Bonds by an investor in accordance with the provisions of Thai tax laws and does not comprise advice on taxation. Accordingly, prospective investors should consult their own tax advisors regarding the consequences of an investment in the Bonds and the interpretation and application of relevant Thai tax laws. This summary is based upon the tax laws of Thailand in effect on the date of this Information Memorandum and is therefore subject to any subsequent changes in the future. If there is any interpretation or application of any relevant provision of Thai tax laws by the Thai Revenue Department which contradicts or is not in line with the information specified in this section, and the Issuer or a holder of the Bonds disagrees with such interpretation or application, such disagreement or dispute may be brought before a Thai court having jurisdiction over the dispute. In this regard, the interpretation or application of such relevant Thai tax law provisions shall be in accordance with the final judgement or decision of such court.

This summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to invest in the Bonds.

The tax liability of a holder of the Bonds and the applicable tax rates will depend on various factors such as whether or not the holder of the Bonds is an individual or a juristic person, or whether it is a juristic person that is not subject to income tax, whether the holder of the Bonds is considered a tax resident of Thailand or is considered to be carrying on business in Thailand, or whether the holder of the Bonds is a tax resident of a country that has a double taxation agreement with Thailand.

Should any holder of the Bonds wish to rely on the benefits under any double tax agreement entered into between the Kingdom of Thailand and the country of its residence in respect of the withholding tax on interest paid to non-resident individuals, the holder of the Bonds must submit relevant documents evidencing its right under such double tax agreement to the BOT, as the Registrar and Paying Agent.
